### OBJECTIVE

Seeking Shopify Developer position where I can best use my fundamental knowledge of Shopify 2.0 technologies needed to create and modify themes.

### EXPERIENCE

I am a Self-taught developer that loves to design and code. If you look at my GitHub you will see I am constantly committing new code for several years now. If you give me a shot I promise to contribute, learn & grow with all my heart as I love the Shopify platform.

#### Freelance Shopify Developer

Your Shopify Guy, Long Beach, CA  
April 22 to present

I'm starting a new brand dedicated to helping people with Shopify development and theme customization .

#### Mobile Developer Founder

Ongo Mobile, Long Beach, CA  
October 18 to April 22

My most successful app is an app for window cleaners that solves a problem with estimating jobs. I built the iOS version with SwiftUI and the Android version is built with React Native.
