SUMMARY

I'm a self-taught developer. I love to design & code. My best skills are the ability to listen, learn & be patient with people. Try me & I will give you the best I have.

EXPERIENCE

Freelance Frontend Developer

Your Dev Guy, Long Beach, CA
Oct 2018 to present

- Developed websites with Gatsby and Jamstack architecture
- Developed a native mobile app, with SwiftUI & React Native
- Created accessible designs and assets in Figma & Sketch
- Developed applications with Vue.js
- Extended Webflow websites with custom code

PROJECTS

Window Counter Pro

Is an app for window cleaners. It solves a problem for estimating jobs. Using empathy & user feedback.
https://www.windowcleaningestimator.com/

Your Dev Guy

Is built with React, Gatsby & Styled Components. You can see more of my work here.
